

PRODUCT INFORMATION

Fashion T All Over Prints

The signature men's cut and sew t-shirt collection. Be bold and take these impressive looks out on the town.... Cut and sew t-shirts are super smooth, super comfortable, and made from a cotton touch polyester jersey that won't fade after washing.

- 95% polyester, 5% elastane (fabric composition may vary by 1%)
- Premium knit mid-weight jersey
- A regular fit with four-way stretch fabric that stretches and recovers on the cross and lengthwise grains

Care Instructions

Cut and sew, all-over printed apparel is recommended washing in cold/warm water, without bleach, and washing with like colors, as the polyester fabric may make colors run. You can tumble-dry the apparel on low heat. These shirts can't be ironed or dry-cleaned. Please note that contact with rough surfaces and velcro fasteners should be avoided since they can pull out the white fibers in the fabric, damaging the shirt's appearance.

Ceramic Plates

Create your own collection of these unique, decorative delights made from beautiful Bone china. Each bespoke ceramic plate is 8"/20 cm with a classic, wide lip and shallow depression design. Printing is done with a special process to produce details that are bold and clear, depicted in a full-color vibrant print image with a permanent finish. Each plate comes with a folding black stand to display.

Care Instructions

The ceramic plates will look their best for years to come, as long as the minimal care instructions are followed. It is not recommend using your plate for meals that require the use of cutlery, as persistent scratching might deflect from the beauty of the print. If using the plate for food, we suggest keeping it as a serving dish, for food items such as bread, crackers, cheese etc. It is always best to hand wash your plate in order to preserve the print. These plates are not dishwasher safe.

Fine Art Prints

Time is taken to ensure the creation of high quality art prints using Hahnemühle photo rag paper and Epson Ultrachrome HDX pigment inks. These museum quality inks feature print permanence ratings of up to 200 years and are extremely resistant to humidity, UV, and atmospheric Ozone.

Sizing

Abstract fine art prints come in 4 sizes at a ratio of 1:1:

12" x 12"

16" x 16"

20" x 20"

24" x 24"

Care Instructions

It is recommended that Fine Art Prints are best preserved and protected from the environment by matting and framing. Also, it is suggested that prints of museum quality not be exposed to direct sunlight for long periods of time to prevent fading even though quality UV pigment inks are used.

Couture Scarves

Step up in style with these gorgeous couture scarves, the ultimate accessory to enhance your unique look. Poly Chiffon, Satin Charmeuse and Matt Crepe scarves are printed with a specially developed print process using water-based sublimation dyes and print a huge spectrum of lively washfast colours. We work with one of the highest gamut inks available to give you the widest range of achievable print colours. Silk Habotai and Silk Charmeuse scarves are made from pure silk and printed using permanent reactive inks that bond with the cell of the fiber.

All scarves are 16" x 72" and hand cut and sewn by skilled trades persons with a baby rolled machine finished hem provides a durable yet delicate edge finish.

Care Instructions

Hand wash cold water with a mild detergent and lay flat to dry. Iron on low heat. Do not bleach.
